| Product Description        | CPB504 is a 1+1 bivalent bispecific checkpoint inhibitor antibody that targets both mouse programmed cell death protein-1 (PD-1, CD279) and mouse cytotoxic T-lymphocyte-associated antigen-4 (CTLA-4) to enhance T-cell-mediated antitumor immunity. CPB5... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | Lot specific, typically between 4-11 mg/ml                                                                                                                                                                                                                    |
| Clone Designation          | [Derived from clones 9D9 and RMP1-14]                                                                                                                                                                                                                         |

|                   |                                                                                                  |
|-------------------|--------------------------------------------------------------------------------------------------|
| Molecular Weight  | 136.3 kD                                                                                         |
| Buffer            | PBS, pH 7.0, Contains no stabilizers or preservatives                                            |
| Purity            | 95% , Determined by SDS-PAGE                                                                     |
| Form              | Liquid                                                                                           |
| Formula           | PBS, pH 7.0, Contains no stabilizers or preservatives                                            |
| Target            | PD1                                                                                              |
| Application Notes | ELISA , For information on in-vivo applications, please contact technicalservice<br>bioxcell.com |
