Product Datasheet

Sheep Antiserum anti-Rabbit IgM (μ)-unconj., MinX none NMB-SHAR/IGM(FC)

Article Name	Sheep Antiserum anti-Rabbit IgM (μ)-unconj., MinX none
Biozol Catalog Number	NMB-SHAR/IGM(FC)
Supplier Catalog Number	ShAR/IgM(Fc)
Alternative Catalog Number	NMB-SHAR/IGM(FC)
Manufacturer	NordicMubio
Host	Sheep
Category	Antikörper
Species Reactivity	Rabbit
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgM (μ)
Cross-Adsorption (MinX)	no cross-adsorbtion
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgM molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal rabbit serum a single precipitin line is obtained which shows...
Clonality	Polyclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal sheep serum. No foreign proteins added. Reconstitute the lyophilized
Source	Highly purified normal IgM isolated from pooled rabbit serum. Freunds complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal sheep serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl or equivalent against 120 µl antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 µl in a 3 mm diameter center well and 2 µl serum samples (neat and serially d
