### Mouse IgM Isotype Control PE, Clone: PFR-03 EXB-1P-803-C025

Article Name	Mouse IgM Isotype Control PE, Clone: PFR-03
Biozol Catalog Number	EXB-1P-803-C025
Supplier Catalog Number	1P-803-C025
Alternative Catalog Number	EXB-1P-803-C025
Manufacturer	EXBIO
Category	Antikörper
Application	FC
Conjugation	R-PE
Concentration	0.1 mg/ml
Clone Designation	PFR-03
Isotype	IgM
Storage	2°C to 8°C

Application Notes

Negative control: The reagent is intended as an isotype control to establish the amount of non-specific antibody binding. For your particular experiment, use the same concentration of this control antibody as the recommended working concentration of the antigen-specific antibody. Also, when working with prediluted antibodies, dilute the isotype control to the same concentration as is the concentration of the antigen-specific antibody in the prediluted antibody solution you are using. If under particular experimental conditions the background signal of the isotype control is too high (usually when working concentrations of used antibodies are above 10 µg/ml of incubation mixture), change the conditions of your experiment to reduce the background.
