| Category                   | Kits/Assays                                                                                                                                                                                                                            |
| Application                | ELISA                                                                                                                                                                                                                                  |
| Species Reactivity         | Canine                                                                                                                                                                                                                                 |
| Product Description        | This Canine Renin (REN) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Range                      | 15.625-1000pg/mL                                                                                                                                                                                                                       |
| Sensitivity                | 5.9pg/mL                                                                                                                                                                                                                               |
