| Product Description        | Donkey anti-rabbit IgG (H&L) is a secondary antibody, HRP conjugated, which binds to all rabbit IgGs in immunological assays. Antibody is specially adsorbed against bovine, chicken, goat, guinea pig, hamster, horse, human, mouse, rat, sheep IgG. Antibodies ar... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                             |
| Purity                     | Immunogen affinity purified IgG.                                                                                                                                                                                                                                       |
| Form                       | Lyophilized                                                                                                                                                                                                                                                            |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                                                                                                                    |
| Application Dilute         | The optimal working dilution should be determined by the investigator                                                                                                                                                                                                  |

Application Notes

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily
