| Species Reactivity         | Human                                                                                                                                                                     |
| Immunogen                  | Purified human IgA heavy (alpha chain)                                                                                                                                    |
| Conjugation                | biotin                                                                                                                                                                    |
| Product Description        | Goat anti-human IgA (alpha chain) is a secondary antibody conjugated to biotin which binds to human IgA heavy (alpha chains) F(ab)2 fragments in immunological assays.... |
| Clonality                  | Polyclonal                                                                                                                                                                |
| Purity                     | Immunogen affinity purified goat IgG.                                                                                                                                     |
| Form                       | Liquid                                                                                                                                                                    |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                       |

|                    |                                                                                                                              |
|--------------------|------------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | The optimal working dilution should be determined by the investigator                                                        |
| Application Notes  | No reactivity is observed to other immunoglobulins or non-immunoglobulin human serum proteins based on immunoelectrophoresis |
